

**Menzel** is a company solely involved in catering to the growing imaging solution needs in India. South Asia & the South East Asia. Be it simple video inspection, machine vision or detailed image analysis, be it surface inspection for defects or quantification of microstructure measurement data, be it a research project or a production line, **Menzel** has an imaging solution for every application.

Ease of operation, fast, accurate result and a great price performance ratio and most importantly providing a solution that works for you from day one are the key factors that go into the integration of each of our imaging solution.

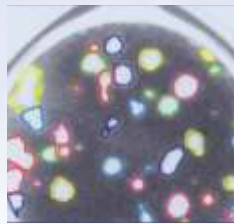

## Imaging Applications Areas

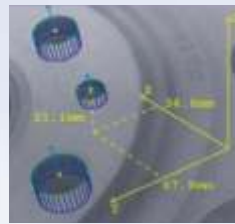

Food, Health Care & Life Science

Medical Image Analysis  
Cytology

Medical Image Analysis  
Bacteriology

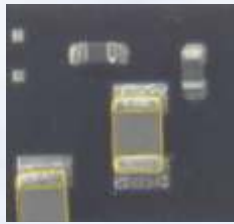

Automotive & Robotics

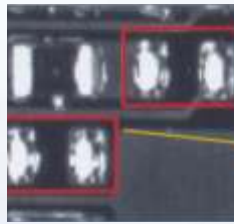

Automotive & Robotics

Surveillance & Security

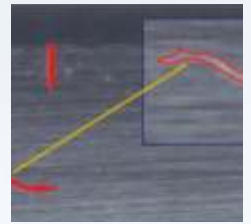

Board, Wafer & Die Inspection

Completeness Inspection

Positioning & Alignment
