

# Scan2Docx Document Scanner

Scan2Docx is a high speed, compact and easy-to-use document scanner for digitally archiving paper documents. It scans an entire A4 page at a resolution of 200 dpi in two seconds and with only one pass. Using the included software, you can save directly to OCRed PDF, as well as JPG, BMP, PNG and multi-page TIF. Moreover, you can share documents via drag and drop, enabling you to send scans directly via e-mail.

## Portable Document Scanner

The document scanner is a very fast, portable document scanner to scan A4 documents, books, magazines and 3D objects. The system consists of a foldable document scanner and a software application. Weighing only 500 g., the document scanner can be easily transported and is suited for use in the workplace, at school, at home or on the road.

## High Resolution Camera-based Document Scanner

The document scanner is fitted with a high resolution 5 megapixel (2592 x 1944 pixel) USB 2.0 color camera, which outputs a live video stream at 2 frames per second. This allows documents to be easily positioned under the scanner. The document scanner's resolution is 200 dpi.

## Scan an Entire Page in 2 Seconds

An entire A4 page can be scanned in 2 seconds at a resolution of 200 dpi. This is a very powerful feature to quickly scan, for example, entire books, magazines and batches of documents. Scanned images are converted to text using the included OCR software. A foot switch is available as an optional accessory, which enables the document scanner to be operated hands-free.

## Ships with Easy-To-Use Intuitive Software

The software, which ships with the document scanner is easy and intuitive to use. It offers all necessary functions to scan, archive, copy and print documents. Multi-page documents can be saved as PDF and opened with Adobe Reader®. Single scans can be saved as JPG, TIFF, PNG and BMP. Scanned documents are listed under one another in the left pane of the software application and can be moved via drag and drop.

# Scan2Docx - Portable Document Scanner

Scan2Docx is a very fast, portable document scanner to scan A4 pages, books, magazines and 3D objects. The system consists of a foldable document scanner and a software application.

Weighing approx. 500 g (1.2 lb), the document scanner can be easily transported and is suited for use in the workplace, at school or at home.

## **High resolution document scanner**

The document scanner is fitted with a high resolution 5 megapixel (2592 x 1944 pixels) USB 2.0 camera, which outputs a live video stream at 2 frames per second. This allows documents to be easily positioned under the scanner.

Thanks to the scanner's large depth of field, thick books and folders always remain in focus, while they are being scanned.

## **Scan page in 2 seconds**

An entire A4 page can be scanned in only 2 seconds, at a resolution of more than 200 dpi. This is a very powerful feature to quickly scan, for example, entire books, magazines and batches of documents.

A footswitch is available as an optional accessory, which enables the document scanner to be operated hands-free.

## **Lightweight and highly portable**

The document scanner is lightweight, foldable and easily transported. It weighs approximately 500 g (1.2 lb) and fits perfectly into document bags or briefcases. AC power is not required. The document scanner is ready to use as soon as you plug it into your PC's USB port.

## **Multi-functional and easy-to-use**

The multi-functional document scanner utilizes its built-in OCR software to convert image to editable text. The shipped software reconstructs the original documents, preserves document structures and formats, and exports the resulting documents to PDF or RTF formats.

# Scan2Docx Hardware and Software

Scan2Docx consists of a software application and hardware document scanner.

It ships with a scan pad, USB cable, software CD and document scanner with lighting, as illustrated in the photo to the right.
